“The Fresh Light of Corian®”

Przemyslaw Stopa

Oggetto luminoso/Lighting object: Fin

Fin

Shell

Wakame

Descrizioni:

Fin
Fin è una lampada di medie dimensioni da tavolo o da terra. La sua sagoma organica è contornata da forme tonde tipo squame. La lampada comprende dei motivi organici intagliati che creano un'effetto di illuminazione a più strati, in cui la luce attraversa più di uno strato di Corian® traslucido.

Shell
Shell è una lampada da terra/scultura illuminata con una forma di onda ben definita lungo il bordo. Dei disegni organici sono intagliati sulla superficie di Shell in modo da amplificare la traslucenza della luce quando la lampada è illuminata, e per arricchire la sua tridimensionalità quando è spenta.

Wakame
Wakame è una lampada da terra, la cui forma organica assomiglia alle foglie di wakame. La lampada ha una struttura multistrato in Corian® unica. Con l'idea creativa di stratificare diversi colori e forme di Corian® traslucido, Wakame può essere illuminata con molte tonalità di luce, colori e sfumature.

Descriptions:

Fin
Fin is a medium-sized table or floor lamp. Its organic shape is surrounded with fin-shaped plates. The lamp includes engraved organic patterns that create a multi-layer illumination effect, whereby light penetrates through more than one layer of translucent Corian®.

Shell
Shell is a floor lamp/illuminated sculpture with a clearly defined wave along its edges. Engraved organic patterns are applied to Shell's surface in order to amplify light translucency when the lamp is illuminated, and to enrich its three-dimensionality when it is off.

Wakame
Wakame is a full-height floor lamp, whose organic shape resembles wakame leaves. The object has a unique multi-layer Corian® structure. Thanks to the creative idea of layering different translucent colors and shapes of Corian®, the illuminated Wakame has many tones of light, colours and shades.
