- 10. Echo** Explore where the two dimensional and three dimensional worlds begin and end. Immerse yourself in Echo's Heirloom India collection of wallpapers and fabrics. Live our passion for color and pattern.
- 11. Perkins+Will** Guests are encouraged to scroll and sketch throughout the evening, allowing the table to come to life by leaving traces of the personalities that collectively transformed the space.
- 12. David Rockwell/Rockwell Group** We created an environment inspired by our recently completed project Chefs Club by Food & Wine. To capture the unique Chefs Club experience, we have created a demo table where chefs, designers, and editors will give demonstrations.
- 13. Casali with Tonon, Mohawk Group, Ghelamco and Artemide, designed by Mac Stopa** With organic forms and parametric vibes, "Hybrid Collection" explores the synergy between Mac's passion for creating innovative design based on digital geometries and random geometries created by nature.
