**product** Peak  
**standout** Faceted pulls and knobs, inspired by the New Orleans designer's stint at Zaha Hadid Architects, began as jewelry. These particular gems are hand-cast and -finished in an array of metals and finishes. [marioncage.com](http://marioncage.com). **circle 911**

## *ma yansong of mad architects*

for **Olivari**  
**product** Marilyn  
**standout** The staid door handle gets a sexy new twist with this ergonomic design rendered in solid brass and offered in four finishes, chrome among them. [olivari.com](http://olivari.com). **circle 912**

## *mac stopa*

for **NMC**  
**product** Arstyl  
**standout** Wall tiles are typically presented in rigid, predictable patterns. In contrast, these modules of high-density polyurethane foam were designed to be arranged individually, horizontally, diagonally—or in any permutation you can conjure. [walltiles.arstyl.com](http://walltiles.arstyl.com). **circle 913**
